PROFILE

jVersatile and detail-oriented Full-Stack Developer with over 2 years of experience building and optimizing dynamic, high-performance web applications. Proficient in both front-end and back-end technologies, including JavaScript (ES6+), React, Next.js, Node.js, and MongoDB. Skilled in designing scalable, maintainable code and implementing robust APIs to meet diverse client needs. Passionate about improving user experiences and delivering innovative solutions, with a proven track record of reducing application load times by up to 40% and boosting user engagement by 25%. Adept at collaborating in Agile teams to deliver projects on time and mentoring junior developers.

WORK EXPERIENCE

Full stack developer (GRAINOV)

2023 - PRESENT

- Designed and developed fully responsive web applications using React, Next.js, and Node.js, improving user engagement by 25%.
- Built and integrated RESTful APIs to enable seamless communication between client-side and server-side applications.
- Optimized web performance by implementing lazy loading, caching strategies, and efficient database queries, reducing page load time by 40%.
- Collaborated with cross-functional teams using Agile methodologies to deliver projects 15% ahead of deadlines.
- Deployed applications to production using Render, Netlify and Vercel, ensuring 99.9% uptime.
- Mentored junior developers, improving team productivity and knowledge sharing.

Freelance developer (Self-Employed, Remote)

2023 - PRESENT

- Built and deployed over 10 custom web applications for clients, using React, Node.js, and Firebase.
- Developed a CRM system for a local business, resulting in a 50% improvement in task automation and client communication.
- Delivered clean, maintainable code by adhering to best practices and implementing version control with Git.
- Provided ongoing technical support and updates for client websites, improving user satisfaction scores by 30%.
